Use the ribbon cable provided to connect "Link Out" from one unit to the "Link In" of the other unit. This will transfer IR signals between units.

*You must split the audio feeds into all 4 units in order to hear that source in all 16 zones.

Note: All 4 P-1044's shown above must be powered by an AB-T2454 power supply. These power supplies are not shown in the diagram above. Each P-1044 will come with a power supply.
