

 **CHANNEL VISION™**
2 Year Limited Warranty

Channel Vision Technology will repair or replace any defect in material or workmanship which occurs during normal use of this product with new or rebuilt parts, free of charge in the USA, for two years from the date of original purchase. This is a no hassle warranty with no mail in warranty card needed. This warranty does not cover damages in shipment, failures caused by other products not supplied by Channel Vision Technology, or failures due to accident, misuse, abuse, or alteration of the equipment. This warranty is extended only to the original purchaser, and a purchase receipt, invoice, or other proof of original purchase date will be required before warranty repairs are provided.

Mail in service can be obtained during the warranty period by calling (800) 840-0288 toll free. A Return Authorization number must be obtained in advance and can be marked on the outside of the shipping carton.

This warranty gives you specific legal rights and you may have other rights (which vary from state to state). If a problem with this product develops during or after the warranty period, please contact Channel Vision Technology, your dealer or any factory-authorized service center.

INSTRUCTIONS

 **CHANNEL VISION™**
A0503
REMOTE CONTROL

 **CHANNEL VISION™**

©2005 CHANNEL VISION TECHNOLOGY

The **A0503** is the installer's master remote for Channel Vision's whole-house intercom system. It is designed to control every possible function of the intercom. Installers can use this remote to teach a learning remote control the IR codes needed for their specific system.

Features:

- Easily controls your whole-house intercom system
- No programming necessary
- Compatible with: P-0930 and ST-2000

Station Call Buttons

The intercom system can have up to 4 hubs with 6 stations each, providing a total of 24 possible stations (or Zones). The 6 station call buttons on the ST-2000 are always Zone A. When the ST-2100 station expanders are used, Zone B, C, & D on the A0502 remote will control their 6 call buttons.

Using the A0503 remote control...

The A0503 is designed to allow you to control your intercom system without having to touch the buttons on the intercom station. Simply point the A0503 remote control at the IR sensor located at the bottom of the ST-2000 and press the desired button on the remote control.
