

CHANNEL VISION  
Limited Warranty

Channel Vision Technology will repair or replace any defect in material or workmanship which occurs during normal use of this product with new or rebuilt parts, free of charge in the USA, for two years from the date of original purchase. This is a no hassle warranty with no mail in warranty card needed. This warranty does not cover damages in shipment, failures caused by other products not supplied by Channel Vision Technology, or failures due to accident, misuse, abuse, or alteration of the equipment. This warranty is extended only to the original purchaser, and a purchase receipt, invoice, or other proof of original purchase date will be required before warranty repairs are provided.

Mail in service can be obtained during the warranty period by calling (800) 840-0288 toll free. A Return Authorization number must be obtained in advance and can be marked on the outside of the shipping carton.

This warranty gives you specific legal rights and you may have other rights (which vary from state to state). If a problem with this product develops during or after the warranty period, please contact Channel Vision Technology, your dealer or any factory-authorized service center.

The **C-1327** is a truly universal mounting plate. It is designed to accommodate third-party printed circuit boards (PCBs). The C-1327 is perfect for security, fire alarm, or automation control boards that would otherwise require an enclosure of their own.

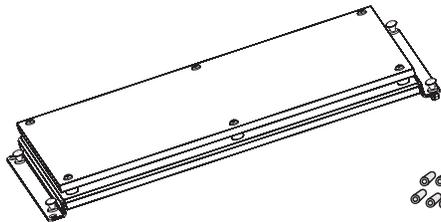

**Features:**

- Quick & easy installation
- Works with any printed circuit board up to 5.75" X 11.0"
- Allows third-party PCBs to mount in a structured wire enclosure
- Works with typical PCB mounting holes no matter where they are
- Only a screwdriver is needed for installation. No drilling required.

**How it works:** The **C-1327** features a PVC material that is clean, attractive and easily to screw into. By using the provided nylon standoffs and self-tapping screws, any PCB can be mounted in a matter of minutes.

**What's included:**

- 1) C-1327 Universal Mounting Plate

6) Screws

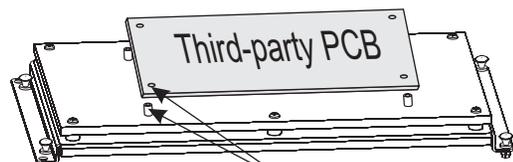

6) Nylon Standoffs

**Installation:**

Note: the size, shape, and hole location on your PCB may be different than those shown below. Do not be concerned, these diagrams are only intended as a guide. Maximum PCB size is 5.75" x 11.0"

**1. Mounting your PCB:**

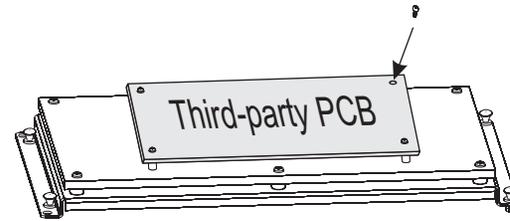

Align the provided standoffs with the mounting holes on your PCB and position circuit board in the desired location.

Align standoffs with holes

**2. Securing your PCB:**

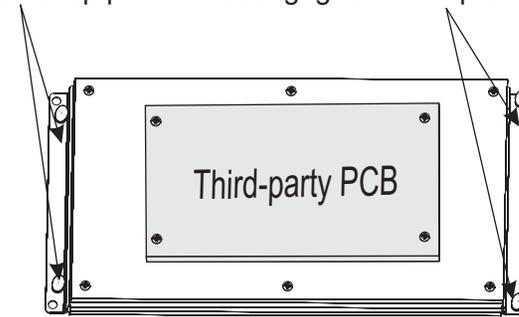

Attach your PCB to the mounting surface with the provided screws.

**3. Placing your PCB in the enclosure:**

Align the snap pins with the holes in the structured wire enclosure. Once the assembly is in the desired location, press the 4 snap pins to lock it into place.

Make sure snap pins are disengaged before placing in the enclosure.
