

10 Year Limited Warranty

Channel Vision Technology will repair or replace any defect in material or workmanship which occurs during normal use of this product with new or rebuilt parts, free of charge in the USA, for ten years from the date of original purchase. This is a no hassle warranty with no mail in warranty card needed. This warranty does not cover damages in shipment, failures caused by other products not supplied by Channel Vision Technology, or failures due to accident, misuse, abuse, or alteration of the equipment. This warranty is extended only to the original purchaser, and a purchase receipt, invoice, or other proof of original purchase date will be required before warranty repairs are provided.

Mail in service can be obtained during the warranty period by calling (800) 840-0288 toll free. A Return Authorization number must be obtained in advance and can be marked on the outside of the shipping carton.

This warranty gives you specific legal rights and you may have other rights (which vary from state to state). If a problem with this product develops during or after the warranty period, please contact Channel Vision Technology, your dealer or any factory-authorized service center.

Channel Vision products are not intended for use in medical, lifesaving, life sustaining or critical environment applications. Channel Vision customers using or selling Channel Vision products for use in such applications do so at their own risk and agree to fully indemnify Channel Vision for any damages resulting from such improper use or sale.

J-SMAA (Almond)

J-SMAI (Ivory)

G-SMAW (White)

WIRELESS ANTENNA EXTENSION INSERT

The **G-SMAW**, **J-SMAA**, and **J-SMAI** wall plate inserts allow detachable wireless antennas to be located outside a rack or structured wire enclosure where they can work more effectively. When wireless transmitters and receivers need to be located in places that cause their wireless signals to be severely attenuated, the SMA insert can dramatically improve system's performance. The insert can be snapped into any of Channel Vision's insert wall plates.

Features:

- Allows remote mounting of detachable wireless antennas
- Pre-made extension cable
- Installs into any Channel Vision insert wall plate
- Works with Channel Vision's wireless audio products
- Quick and easy installation

Typical Application

To install the wireless antenna extension, unscrew the detachable antenna from your wireless device (such as the WA-320 shown below) and attach the male end of the pre-made cable in its place. Snap the insert with the female SMA connector into a Channel Vision insert wall plate and reattach the antenna.
