AB-311 iBus iPod Wall Dock for A-BUS™

Dock It and Rock Out!

Channel Vision Technology's new AB-311 iBus™ iPod® Wall Dock for A-BUS® is now available and for an affordable \$275 MSRP.

The AB-311 iBus iPod Wall Dock for A-BUS combines two of today's most popular technologies: A-BUS whole-house audio and the Apple iPod Digital Music Player.

A-BUS, which has become popular thanks to its low cost, ease of installation, and convenient features, is a favorite among homebuilders and installers. iPod music players, which make downloading and customizing play lists fun and easy, are a sensation among music fans. By creating a product that considers the demands of the homebuilder, installer and homeowner, the AB-311 is sure to be a hit.

- Fits into any pre-wired A-BUS installation
- Is a local input module
- Senses audio to override the main A-BUS source
- Charges the iPod
- Is compatible with iPods that use an Omni connector
 - Apple iPod
 - iPod Mini

Specifications: (typical)

Frequency range: 20Hz-20kHz (minimum)

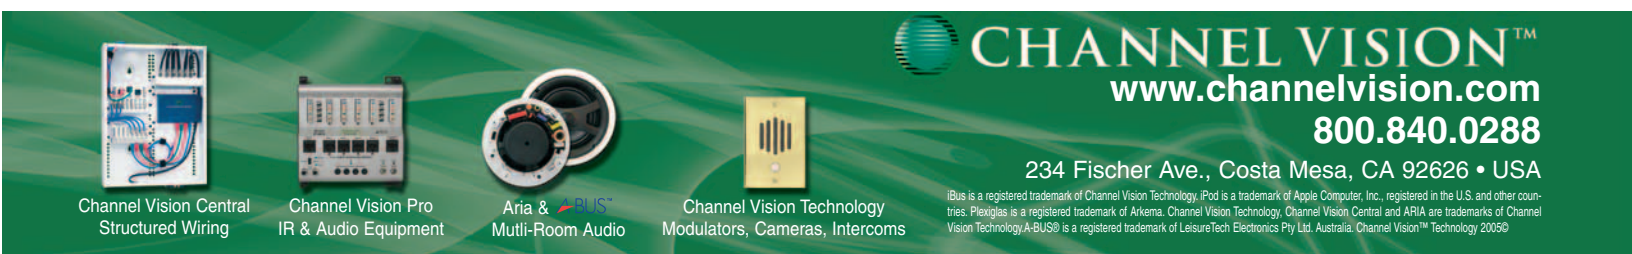

Connectors: 1 Omni connector (male)

In-wall Depth: 1.2" (from face of the wallboard)

Specifications subject to change without notice.
