

CHANNEL VISION *Central*

C-0217 Phone & TV Distribution Module

Channel Vision's C-0217 is a compact distribution module that distributes 4 Central Office phone lines to 7 locations and a CATV or antenna signal to 6 locations. The standard 110 punch down connectors allow for an easy and quick installation telephone service. The vertical orientation of the 6-way RF splitter allows easy connection of coax cables without exceeding maximum bend specifications. The C-0217 is ideal for installations which require telephone and TV service at several locations, but have very little space inside the structured wiring enclosure.

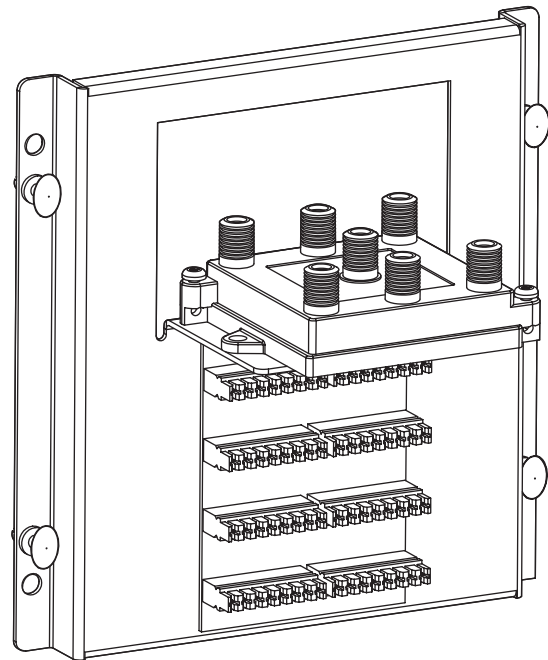

C-0217

Features:

- Compact Design
- Simple connections
- DC power passing 6-way RF splitter
- Telephone distribution to 7 locations

Specifications:

- RF Insertion loss:** 10 dB (typical)
- RF Bandwidth:** 5-1000MHz
- RF inputs:** 1 (DC passing)
- RF outputs:** 6 (DC passing)
- 110 connectors:** 8 (all bridged)
- Dimensions:** 6.50" L x 6.38" W x 2.83" D
