

8" In-Ceiling Speaker

IC824

Channel Vision's ARIA IC824 8" in -ceiling custom installation speakers feature high power handling capability providing true stereo quality sound and not simply background music. The pivoting tweeter and 15° angled woofer can be aimed to any position to custom fit any room, making them perfect for home theater applications as well as whole-house audio. High quality materials ensure long life and great performance. Gold speaker terminals not only provide better contact surface but also offer less resistance to signal transfer for a clearer sound.

Features

8" High performance in-ceiling loudspeaker
High power handling capacity
Recommended power: 20W to 200W (peak)
Gold speaker terminals
