

CHANNEL VISION™

IR-1203 IR Hub

Channel Vision's **IR-1203** Amplified Hub is a versatile, easy-to-use and cost-effective IR distribution solution. The IR Hub can be used in a variety of applications and provides power to multiple IR receivers from one central location. Utilize the IR-1203 to expand an existing IR system by simply adding IR emitters. Its compact size makes the IR-1203 ideal for installation directly onto any flat surface and can be hidden easily.

IR-1203

Features:

- 4 IR emitter outputs
- Status LEDs for power and IR signal indication
- Screw terminal or mini-plug connections for IR receivers
- Power supply included
- Easily mounts to any flat surface
- Easy-to-install

Specifications: (typical at 25°)*
