

IR-6001

IR Repeater System

Channel Vision's IR-6001 is an all in one IR repeater system with 3 adjustable IR emitter outputs and a two year warranty. The IR-6001 contains the latest self modifying software which will automatically adjust the IR code of each equipment provider. This system is designed to receive both low latency and high frequency signals while maintaining noise immunity.

FEATURES

Plasma Proof IR receiver

4 IR emitters (two double head emitters)

Status LEDs for power and IR signal indication

Single Port with adjustable emitter strength

Tabletop, mini and hole mount receiver included

SPECIFICATIONS*

Voltage Requirements: 12 vDC 250mA switching

IR Frequency Range Supported: 36 kHz-60 kHz

IR Pickup Range: 40 ft. @38 Hz, 20 ft. @ 56kHz

IR Receiver Head Dimensions: 0.65" x 0.35" x 0.25"

IR Emitter Outputs: 3

Color: Black

*Specifications subject to change.
