

TE-0212 Telephone Entry Kit

Channel Vision's TE-0212 is a kit that includes the P-0920 Telephone Entry Controller and the IU-0212 white Door Intercom Station. When used together these two products create an elegant access control solution that enables a homeowner to speak to a visitor at the door without opening it.

TE-0212 Includes:

Features:

- Chimes contact to operate a traditional doorbell chime
- Works without an active telephone line
- Distinctive telephone ring
- Call waiting tones notify you that somebody is at the door when you're on the phone
