

## Control4® Driver Image Quality On W-4001

It has come to the attention of Channel Vision that customers were experiencing issues using drivers supplied by Extra Vegetables when using the W-4001 web server. The issue was related to stream settings and several other factors in the web server and drivers.

Channel Vision and Extra Vegetables have corrected this issue with new firmware for the W-4001 and new Control4® compatible drivers for the W-4001. These drivers can be downloaded for free at <http://www.extravegetables.com/products/channel-vision> (You must login to download drivers)

New firmware for the W-4001 can be obtained here:

[http://www.channelvision.com/wp-content/uploads/Firmware-Software/\(V1.0.68\\_OL\).bin](http://www.channelvision.com/wp-content/uploads/Firmware-Software/(V1.0.68_OL).bin)

### Problem Example

### Example with new drivers & firmware
